

## HOW DESIGN INNOVATION CAN IMPROVE YOUR PROJECT

Find out how design innovation can improve sustainability scores, reduce build costs and reduce problems like noise nuisance.

These half-day forums are being run for managers from Housing Associations, ALMOs, contractors, architects, housing officers and other local authority specialists to learn how innovation in acoustics and sustainability must be built in to designs and standards used in the Social Housing sector.

These events are also suitable for Councillors and others who influence strategy and standards in social housing.

### **Regional Forums Schedule:**

South West England - Wednesday, 6th May  
South East England - Monday, 18th May  
Haigh Hall, Wigan - Monday, 15th June  
North Wales - Monday, 22nd June  
Birmingham, West Midlands - Tuesday, 23rd June  
London - Tuesday, 30th June  
East Anglia, Chelmsford - Wednesday, 1st July  
East Anglia, South Cambridgeshire - Thursday, 2nd July  
Central England - Tuesday, 7th July
